PHARMATHRIVE AFRICA

Capability statement

Pharmacist-led contract research and pharmacovigilance for safer medicines across Kenya and East Africa. Safer medicines, proven in Africa.

WHAT WE DO

- **Contract research:** field and desk (secondary) research, observational only. We do not run interventional drug trials.
- **Real-world evidence and informatics:** structured data from pharmacies, clinics and hospitals.
- **Pharmacovigilance as a service:** Local QPPV, active adverse drug reaction reporting, ICSR and aggregate safety reports.
- **Research and PV regulatory support:** ethics approvals, research licensing, safety reporting to PPB.
- **Research Fellowship:** trained field researchers from any background.

WHO WE SERVE

- Pharmaceutical companies
- Hospitals and health agencies
- NGOs and funders
- Universities and research groups
- Individual researchers
- Community pharmacies, clinics and rural hospitals

HOW WE WORK

Consult, then **collect and analyse**, then **report and act**. Scope, timelines and deliverables are agreed in writing before work starts.

FOCUS AREAS

- Non-communicable diseases
- Antiretroviral regimens
- Oncology
- Community and primary care
- Antimicrobial resistance
- Maternal, newborn and child health
- Infectious disease and vaccine safety
- Medicine quality

QUALITY AND COMPLIANCE

- Informed consent and ethical clearance for all studies
- Handled in line with the Data Protection Act, 2019
- Safety monitoring aligned with PPB Kenya, WHO GVP and ICH E2 guidance
- Study conduct to good clinical practice principles

SOCIAL BENEFIT PROGRAMME

The CareGrid Program: safe medicine access, medication therapy management and refill support for rural and underserved communities.

EVIDENCE TO DATE

Pharmacist-Led Digital Real-Time Surveillance for Prescription Error Detection and Analysis. A hospital-based study at Mathari National Teaching and Referral Hospital using our RxRada surveillance tool, with total consecutive enumeration of prescriptions in the data collection period. Abstract AB-031, PSK Annual Scientific Conference 2026. Journal manuscripts in preparation.
